Cow Milking Simulator is a whimsical arcade game. Your mission: milk the cow as fast as you can! Get the milk, sell some dairies, eat cheese, make money. But you have to be quick: a farmer's life is not as chill as you would think!

Cow Milking is a party game in virtual reality, ideal to play and pass with friends, making it a perfect game to show VR for the first time. Collect new products, new hats for your cow and don't forget to milk as fast as you can to mark your name in (leaderboards) history!

Addictive yet elegant. if you're ever bored watch some idiots hitting each other with apples. this game is one of the best of it's time and has been awesome since the first public release! Highly recommended if you like sandbox game and/or war games!. This game doesn't support full screen. Unless you want to play it on a little square don't buy it. I wouldn't have done if I'd known.. LOL...

No words. No words. But I did play this game and make a couple of suggestions to this "no experience developer" that should challenge him as much as his current game challenges me! That video and suggestions within can be seen HERE:

<https://www.youtube.com/watch?v=49OH7BCy2Cg&feature=youtu.be>

[My recommendation: Sure! Help this guy out, the game isn't bad. It's certainly not great, but you can do a helluva lot worse here on Steam for a dollar. :-\)](#) ..Plus I feel like this game could be a lot better and definitely worth the 99 cents if he takes my challenge and makes a very simple change to his game!. Love the game so far. I am at a high score of 2502 right now, and I am trying SO hard to beat it. Just found one bug in the x30 multiplier achievement. It says i have 15/50 instead of 15/30. Apart from that the game works just fine.. I tried the free version not expecting much. It worked great. It got rid of a device driver error I had since always on my Win 7 desktop. It identified and updated 42 drivers.

[Other than not dealing with my Nvidia video driver correctly, which was a very minor issue and easily fixed by me.](#)

[I'm seriously considering getting the Pro version. The only thing keeping me back is I wish there was a Linux support as well.](#)

[.Good controls, nice mechanics, i finshed it without achievements in 50 minutes. So good](#)

[.And you thought the Russians refused to provide context for what you are doing in a videogame.](#)

[Don't spend \\$2 on this unless you are a rich man.. This game is a trip from start to finish, the visuals are amazing. Older Engine But now with higher resolution up to 1080p HORNY!!!! ps:great music](#)

The End is Nigh is a typical beat'em up type game but it was still loads of fun. I like how both characters are different in they way combat works, and the comic cut scenes were very cool. I rather enjoyed this game and I feel it was worth \$5 I payed for it. I can't wait to play through The End is Nigh: Part 2.. This is the coolest VR game I have ever played! The combat is awesome and I have never seen AI like this in any VR game. One question I have is can you not have more than one save on this game?. Very well written story with lots of fun elements. The sheer amount of different classes adds a ton of replayability, the only reason my play time is so low is I've been playing it too much on my phone. Nice game!  
A lot of leagues and the league of my home country(Romania). It's an undeniably strange and crude game, but it's a good deal of fun as a kingdom-management game.. This game is like real life because women are unsolvable puzzles and they love to laugh at me. Abandoned game with no Steam Cloud.

With this new system comes 9 different player trait/passive ability sets which allow for further customization of play-style.

These range from increased defence to gaining double jump & infinite wall vault.

Beware that the perks they offer are not without trade-offs.

One of our favorite is bloodthirsty which will gradually drain your health but allow you to heal from injured enemies (with a

number of other augments to your damage).
